FDESIGN collections were created with the slow living philosophy in mind and reflect the growing trend of consciously chosen products for the home.

They combine refined design with functional solutions that enhance everyday comfort. Selected models feature water-saving technologies that help reduce water consumption without compromising user convenience.

Within the FDESIGN portfolio, design, functionality and durability form a cohesive whole. Products are designed for long-term use, allowing users to enjoy their aesthetics and performance for many years.

Each product line is distinguished by carefully crafted design details that reflect contemporary trends while remaining versatile and timeless. As a result, they integrate harmoniously into a wide variety of interior styles.

The products are offered as cohesive collections whose elements complement one another, making it easier to create a consistent and harmonious interior arrangement.

Contemporary needs in design, functionality and durability are reflected throughout the FDESIGN product portfolio. Products are designed for long-term use, allowing them to retain their aesthetic appeal and functional performance for years to come.

The lines of products are distinguished by a meticulously refined design that suits contemporary stylistic tastes. At the same time, they remain universal and timeless, skillfully adapting to dynamic trends. These products are offered as complete collections of perfectly matched pieces, making it easy to create a cohesive and harmonious interior.

Simplifying everyday life

FDESIGN products are designed to enhance everyday bathroom activities, offering convenience and comfort. Our faucets are equipped with practical features that ensure ease of use, easy maintenance, and reduced water consumption.

COLIBRI CHROME

Lightness of form, subtle elegance

A combination of subtle elegance and contemporary design. The form was inspired by the silhouette of a hummingbird—a symbol of lightness, energy, and perfect control of movement. The slim, precisely defined spout line and the harmonious proportions give the design a sense of visual lightness.
A gently contoured body and refined details create a cohesive, elegant composition where soft lines meet modern geometry. It is a design that discreetly complements the interior and enhances its style.

Pure forms, soft light and refined details create a calm, modern space for everyday rituals.

ZAFFIRO BRUSHED GOLD

The charm of modernism

Brushed gold in a champagne tone gives the design a softer, more subtle expression. It is a finish that does not dominate the space, but rather helps define its character — calm, elegant, and refined in every detail. Its muted tone and understated texture highlight the form in a discreet yet sophisticated way. As a result, it fits perfectly into interiors where restraint, quality, and a carefully composed aesthetic matter most.

ZAFFIRO
BLACK / ROSE GOLD

A modernist bathroom focuses on creating effect on spaciousness and well-organized design. One characteristic of this style is a monochromatic color palette, although uniformity in color does not preclude the addition of an intense accent color. Simple geometric forms are traditional in modernist design, but in today's urban interiors, they often incorporate softer lines. Moderately chosen furnishing are sophisticated yet full of character. A bathroom salon inspired by this style combines contemporary aesthetic sensibilities with timeless appeal. Choosing Zaffiro for such interiors is an ideal solution.
The unique spout design garners constant admiration for users, enhanced by details reminiscent of precious stones that achieve the highest aesthetic qualities through skilled craftsmanship.

ZAFFIRO GUN METAL

In the Zaffiro collection, classic style takes on a new dimension. The gun metal finish brings depth, sophistication, and a contemporary character to the interior, while preserving the timeless elegance of the design. It is a choice for those who value detail, thoughtful design, and solutions that go beyond passing trends. Zaffiro in gun metal is a new expression of classic style — subtle, refined, and modern.

ARDESIA
BLACK / ROSE GOLD
Industrial chic

Beauty demands proper presentation, and a compelling approach is through the glamour style, which epitomizes contemporary elegance. This style highlights unique pieces crafted with exquisite jewelry craftsmanship. Glamour embraces dark colors, which gain added sophistication with accents of copper or gold rose. The Ardesia mixer collection embodies these qualities fully, inspired by the velvety black tones of slate stone, captivating its perfection and finesse.

BRINA

Sparkle of modernity

The Brina collection captivates with the brilliance of light rays peeking through its flawless surface. The elegant chrome plating, reminiscent of gently shimmering ice crystals, alludes to the Italian word “brina” meaning frost. Geometric forms accented by subtly rounded lines evoke durability and reliability. The distinctive “rough edges” break up the massiveness of the faucets, imparting lightness and stylistic coherence to the entire collection. This modern design fits perfectly into industrial interiors that emphasize simple forms and bold aesthetic. The intriguing frost effect adds a unique touch to the room, inviting design experimentation.

SEPPIA CHROME

Noble art déco

If you want to create a bathroom reminiscent of the most luxurious interiors, marble is an essential choice. This noble material lends character and grace, seamlessly integrating in various interior design styles. For a modern, luxurious bathroom, consider marble tiles on both walls and floors. Natural light streaming through a large window enhances the glossy surfaces of the tiles, amplifying their elegance. The Seppia collection in black with rose gold accents is the epitome of luxury in such bathrooms, where the timeless combination of black, white and gold reigns, appealing to those who appreciate classic chic and superior quality.

MEANDRO CHROME

Subtle grace

Modern style bathrooms may appear modest and even a little austere, but in reality, they are highly sophisticated, elegant and impeccably equipped. They are meticulously designed for optimal functionality, ensuring maximum comfort for the user. Characterized by muted colors such as black, grey, and white, this limited color palette, paired with clean lines, creates a clear and uncluttered interior. Decorative elements are used sparingly, with grey or beige tiles, or tiles mimicking trendy architectural concrete, serving as ideal accents in a modern bathroom. Elegant chrome-plated mixer taps complement the walls and floor.

LACRIMA CHROME

Noble vintage

Flats in townhouses exemplify a blend of classic and modern accents seamlessly. With their spacious interiors and high ceilings, they offer limitless possibilities for arrangement. Restored parquet flooring in the bathroom brings back the glamour, while the predominant white color palette enhances the sense of the space and brightness, accentuated by strategically placed mirrors, a freestanding bathtub, a chandelier, wall posters, and fittings from the Lacrima line. Delicate, rounded details on the handles evoke tear droplets, adding a charming vintage touch. The shiny finish provides a contemporary flair.

LACRIMA
OLD BRONZE
Noble vintage

To create a Mediterranean atmosphere even amidst a gloomy backdrop outside, precise interior styling is key. The high ceilings and spacious layout of old townhouses provide an ideal canvas for crafting a classic bath lounge inspired by the South. Incorporating wooden furniture and stone flooring adds a chic touch to the bathroom. Enhance the ambiance with elements like large mirrors and retro-styled ceramics, perfectly complemented by Lacrima mixers. Additional details such as curtains, candlesticks, and chandeliers contribute to a romantic atmosphere.

Pictograms and function designations

In order to increase readability and make product information easier to use, the main features and functions of the products are presented in the form of icons.

FDESIGN AirMix
Perlator with additional water aeration system. Allows you to use less water while maintaining the comfort of a generous stream.

FDESIGN Click
Hot water control system and full flow control system.

Thermostatic faucet
Hot water lock protects against burning and ensures a constant water temperature of 38°C.

Easy Clean
Shower handle nozzles and aerators made of plastic from which lime deposits can be easily removed.

AIR-IN System
An aeration system for the shower handle stream, saving water while maintaining the comfort of a generous stream.

Click-clack drain valve
Products with this icon come with a click-clack drain valve, opened and closed by pressing.

Drain trap included
Products equipped with a drain trap.

Two sources
A product that allows you to connect and use two water outlets.

Multiple stream types
Ability to change the type of stream.

Anti Twist
Hoses that have an Anti Twist tip do not twist.

Vertical adjustment
Vertical bar mounting adjustment.

Horizontal adjustment
Adjust the distance of the bar from the wall.

Safe Touch System
The faucet body does not heat up when using hot water.

Pull-out spout
A pull-out spout increases the convenience of filling tall dishes and allows for precise washing and rinsing.

Rotating spout
The spout rotates 360 degrees.

Folding spout
The faucet is designed to be mounted in front of a window, the folding spout allows you to open it.

Cold Start
The function allows turning on the water jet from the cold water position with a single movement, thus saving energy and increasing comfort whenever you want to quickly fill a vessel with cold water.

The catalog was printed on certified paper.
